The references of the record fail to teach the rotating a roller that can rotate about at least two axes and is supported by a bracket, and includes an addendum roller attached to a primary roller that are together in continuous contact with the surface, to move the mobile robot as recited in claim 42.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
